Mastering Accessibility: Answer Assignment Items and Use Alt-Text

This video demonstrates answering assignment items and viewing alt-text using the NVDA screen reader.

In a multiple-choice question, a student can navigate the question, submit a response and receive dynamic response feedback.

We have also updated many of the images included in our items with Alt Text for improved screen reader navigation.

[Demonstration of answering a multiple-choice question and reading a periodic table question using keyboard navigation and the NVDA screen reader.]
