

## Mastering Accessibility: Navigate to an Assignment

---

This video demonstrates navigating to an assignment and assignment items using the NVDA screen reader.

In addition to the course home, we have updated existing pages to reduce pop-ups and improve navigation. We are not done yet, but will continue to make improvements over the next year.

Once a student clicks on an assignment in the new Course Home, they are directed to the Assignment Item List.

[Demonstration of navigating to an assignment and assignment items using keyboard navigation and the NVDA screen reader.]
